	<b>Report</b>
Name of Activity	Workshop on "Way to be friendly with Nature"
Date	05/06/2021
Venue	Microsoft Teams
Organized by	Department of Education
Participated by	65
Activity - Incharge	Dr. Murvi Singh Rathore
Resource Person	Dr. Shweta Singh
Content	<p>Environment studies is all about learning the way we should live and how we can develop sustainable strategies to protect the environment. It helps individuals to develop an understanding of living and physical environment and how to resolve challenging environmental issues affecting nature. A virtual workshop is organised by Department of Education on "Way to be friendly with Nature". The workshop started with the purpose and importance of the topic, a knowledgeable introduction by Dr Shweta Singh. She highlighted many points that we miss about our precious nature and kept on destroying it intentionally and non-intentionally. After this Dr. Murvi Singh Rathore talked about alternatives a person can adopt in order to save the environment that includes uses of solar energy, rain-water harvesting, wet-waste disposal and organic produce use and much more. That was a wonderful one-hour informative talk.</p> <p>Dr. Shweta Singh concluded by saying that "the contribution is our step towards acknowledging the pain that our mother nature is feeling". Everyone applauded and it was one of the best workshops, I had attended so far.</p>

<p>Objective</p>	<p>*To encourage students to examine and interpret the environment from a variety of perspectives-physical, geographical, biological, sociological, economic, technological, historical, esthetic and ethical.</p> <p>*To make understand the significance of protecting the environment.</p> <p>*To provide opportunities to acquire the knowledge, values, attitudes, commitment and skills needed to protect and improve the environment.</p> <p>spreading awareness about the threat to the environment due to rising pollution levels, climate change, and other aspects.</p>
<p>Outcome of Activity</p>	<p>Students have to take a lead in creating a healthier, greener and sustainable learning environment where students understand the importance of saving the environment and take necessary steps to conserve the natural resources. Workshop also help them to develop the knowledge and skills required to address challenging environmental issues. The aim is developing a world where every individual is aware of and concerned about environmental issues and work towards creating sustainable strategies for the current situation and preventing future problems.</p>
