"Programming with C++ Language: The Complete Course" Online Course from UDEMY dated May 21, 2021-June 22,2021

The Department of BCA organized an intellectual and technical event, " Programming with C++ Language: The Complete Course " Online Course from UDEMY. It was a one month event to understand why C++ is a useful Object Oriented Concepts for developers & to learn how to design and program C++. With an increase in the need for IT positions and, at the same time, a rise in the number of programmers and software developers, it is becoming more and more important to showcase and validate your knowledge, especially when you're looking for a new job and are having to compete on the job market with dozens or even hundreds of other applicants.

A valuable C++ certificate is a powerful weapon in the race for better employment, first-rate expertise and greater competitiveness. Certification opens doors to a better job and a better salary. It is a great motivator for self-improvement and self-development. It is one of the key requirements set by an increasing number of IT managers and, frequently, a standard criterion for candidates among recruiters.

Certification is proof to the employer that you possess the expertise necessary to fulfil certain duties. At the same time, it is a sign for them that you are willing to expand your knowledge. And because certified individuals directly contribute to an increase in a company's efficiency, productivity and profit-making capacity, certification is a great asset for every organization.

After completion of the course, there was a certificate distribution ceremony wherein Hon'ble Chairman Mr. Atul Mangal was invited as a Chief Guest. The event was inaugurated by Hon'ble Vice-chairman, Mr. Ayush Mangal. His presence was a great motivation for the students and faculties of BCA department. Head of the Department, Prof. Abhay N. Tripathi Sir addressed the students and made them aware about the importance of technical courses in our future career aspects.

During the event, all the precautions with respect to COVID-19 were taken into consideration.

After the event ended, our HOD Prof. Abhay N. Tripathi and faculties of BCA Department appreciated the student's efforts and contribution for the event.
