|	**Report**
Name of Activity	Coding Competition
Date	3rd December 2021
Venue	Computer Lab 1 & 2
Organized by	Department of BCA
Coordinated by	Mr. SurajShukla, Faculty, MIMT
Participated by	BCA Students (55)
Resource Person	Dr. Kanika, Faculty, MIMT
Objective	- The aim of this competition was to advance the development and exchange of relevant knowledge. - Gain technical and collaborative skills to design real-life projects. - Be a forum for interaction among students of the institute. - Learn steps of the engineering design cycle (discover-evaluate, design- evaluate, develop evaluate, deliver- evaluate) and how it works as a practical problem solving method
Content	Technology has revolutionized the world and holds the key to our future. Department of BCA of Mangalmay Institute of Management and Technology organizes various technical activities at regular intervals in association with Programming club. Leaning to write programs stretches your mind, develops analytical skills, reasoning ability, logical ability and helps you think better, creates a way of thinking about things which is helpful in all domains. Coding Competition was conducted in Computer Lab 1 and Lab 2. Two problems were given to the students and within 45 minutes they have to come up with the solution. The resource person of the competition was Dr. Kanika. The judgment was purely unbiased and is based on the pre defined rubrics.
Outcome of Activity	Students are able tolearn and practice coding.
