	<b>Report</b>
Name of the Activity	<b>Pebble Art Competition</b>
Date	16 <sup>th</sup> November, 2022 (Wednesday)
Venue	School of Education, MIMT
Organized by	Ek Bharat Shreshtha Bharat (EBSB) Club, MIMT
Participated by	153 Students of B.A.B.Ed.
Activity In-charge	Ms. Vandana
Content	<p>A pebble is a clast of rock with a particle size of 4-64 mm (0.16-2.52) in based on the Udden-Wentworth scale of sedimentology.</p> <p><b>Pebble Art</b> is the type of mosaic work that uses natural pebbles arranged to form decorative or pictorial patterns. It was used only for pavements and was the earliest type of mosaic in all areas of the eastern Mediterranean, appearing in Asia Minor in excavated floors from the 8<sup>th</sup> and 7<sup>th</sup> centuries BC. Pebble painting, or “rocking”. Is a craze that seems to have begun in the US with Megan Murphy’s The Kindness Rocks Project. She came up with the idea after collecting heart-shaped stones and pieces of sea-smoothed glass from the beach, seeing them as “rare treasures or signs and message” from her deceased parents. “Finding them made my happy and I wanted to provide others with a similar experience.” Keeping this in view, Ek Bharat Shreshtha Bharat (EBSB) Club, MIMT organized <b>Pebble Art Competition</b> on 16<sup>th</sup> November, 2022.</p> <p>It motivated young artists and assisted them in developing their creative talents by exposing them to current talent in the area. It inspired them to continuously try and improve.</p> <p>The judging process considered various factors, including adherence to the theme, creativity and presentation. A panel of esteemed judges, comprised of Ms. Sandhya Yadav (Assistant Professor, School of Education MIMT) and Mr. Ashish Mishra (Assistant Professor, School of Education MIMT) carefully evaluated each entry to determine the winners.</p>
Objective	<p>The objective behind organizing "<b>Pebble Art Competition</b>" is to:</p> <ul style="list-style-type: none"><li>• To incorporate nature into an art project.</li><li>• To develop fine motor skills and hand-eye coordination.</li><li>• Improves memory recollection skills</li><li>• Allows the children to really get to use their imagination.</li></ul>

Outcome	Total 153 students participated in Pebble Art Competition. The process of mapping out a pebble design and executing in their masterpiece kept their mind focused on the task at hand, distracted it from outside stressors and temporarily relieved anxiety and worries for the future. Many participants expressed their gratitude for the opportunity to experiment with a new medium and learn from the diverse range of entries.
